

Pick 'N' Mix

Aims and Content

This event is a new innovation in providing tailor-made training for associations. This large scale event will offer participants the chance to define their own learning track by being able to select from over 50 different workshops and learning sessions taking place over 4 days. Participants will be able to design their own programme based on their own learning needs and interests or in response to their specific role in the Association. We encourage associations to send multiple participants to this event.

Priority Areas

- Educational Programme
- Training
- Membership
- Structure and Management
- Relationship to Society
- Finance

Suggested follow up by participants and their associations

- Participants should be able to use their learning in their own associations

Participants Profile

Key members of Associations teams in all areas. There is no limit on how many participants can be sent from Associations.

This project has been funded with support from the European Commission. This project reflects the views only of the World Association of Girl Guides and Girl Scouts (WAGGGS) Europe Region, and the Commission cannot be held responsible for any use which may be made of the information contained
