WHAT IS CLEAN UP THE WORLD?

Clean Up the World is a community based environmental campaign that inspires and empowers individuals and communities from every corner of the globe to make their environment a cleaner, healthier place to live.

Now in its 17th year, Clean Up the World, held in conjunction with United Nations Environment Programme (UNEP), mobilises an estimated 35 million volunteers from 120 countries annually making it one of the largest community based environmental campaigns in the world.

The campaign brings together businesses, community groups, schools, governments and individuals in a range of activities and programs that positively improve local environments.

**Our mission is to
inspire individuals and communities
around the world to clean up,
fix up and conserve
their environment.**

HOW DOES IT WORK?

Groups, organisations, businesses and communities around the world can join Clean Up the World. Membership is free* and renewable annually.

By joining the Clean Up the World campaign, participants can share information and experiences with Clean Up the World's global network and positively change their local environment.

The campaign is coordinated and promoted by Clean Up the World Pty Ltd based in Sydney, Australia.

Clean Up the World provides a range of information, support and facilitation services aimed at assisting participants to organise and promote clean up events and other environmental initiatives.

Clean Up the World activities include clean up events, recycling projects, educational campaigns, resource recovery projects, water reuse and conservation, competitions and exhibitions.

The campaign's flagship event is **Clean Up the World Weekend, 18-20 September 2009.**

Participants are encouraged to organise clean up events around this weekend and celebrate their environmental achievements.

**Corporate entities pay a fee for participation to help us support not-for-profit participants.*
