To keep the Scouts safe and healthy all throughout the 26th APR Scout Jamboree in Mt. Makiling, Philippines from 28th December 2009 to 3rd January 2010, a water re-filling station was set up at the camp providing a scalar energy water that will keep everyone energized.

The water-refilling station is open everyday from 7am to 7pm which provides unlimited supply of "scalar energy water" based in quantum science which enhances bio-electric field of the body, meaning, it increases the body's energy and keeps one away from physical weariness. It also prevents participants from getting bacteria and viruses, as part of the health measures at the jamboree site. The water station is equipped with main water filters, polishing filters, UV light which kills the bacteria in the water before it comes out from the faucets.

The water-refilling station was inaugurated on 26th December 2009 attended by Arthur Tuason, Presidential Director of FusionExcel Philippines and Boy Scouts of the Philippines Secretary General JR Pangilinan. They were joined by the regional team comprised of Regional Scout Committee member Shim Sang Ho, Program Sub-Committee Vice-Chairman Rajalingam Ramasamy and past Programme Sub-Committee Chairman Ms Mari Nakano of Japan and Regional Director Abdullah Rasheed.
