

SCENES Seminar Invitation

Author: Thierry Tournet
Saved From : www.scout.org

A seminar for the SCENES Centres (Scout Centres of Excellence for Nature and Environment), will be organized from the 18th to the 23rd May 2010, in Kandersteg International Scout Centre, Switzerland.

The aim of the seminar is to bring together representatives of existing and potential SCENES Centres, the SCENES Network and people interested in supporting the development of Scouting and the environment, particularly through SCENES Centres. The aim is to strengthen the SCENES Centres and SCENES Network and explore how to continue to advance SCENES as part of the World Scout Environment Programme.

During the seminar, we ask for active participation from all participants so that we can learn from each other. The seminar is designed to be able to support potential new SCENES Centres to learn from existing centres.

Seminar Content

Recommendations for topics that participants wish to cover as part of the SCENES seminar are now being received. Please email proposed agenda items to: educationalmethods@scout.org

It is anticipated the seminar will include:

- Sharing of environmental education and management experiences of SCENES Centres
- Support for the development of new SCENES Centres
- Exploration of the World Scout Environment Programme and resources
- Exploration of Kandersteg International Scout Centre, and surrounding environment.
