European Scout Region organized the Seminar on e-Learning from 16 to 19 November, aiming to provide participants with knowledge about the possibilities of e-learning in the training of adults and so initiate debate concerning its application for adult training in NSAs.

11 participants from Austria, Belgium, Finland, Lithuania, Slovenia, Spain and Sweden had the opportunity to question best possible use of this new approach and also presented a lot of the work already done in some national Scout association. Results of the seminar are ambitious plans, both for associations and the Region. Like many times before, Kandersteg International Scout Centre was excellent host, this time also offering suitable technical support to this demanding event.

The report of the Seminar will follow as soon as possible.
