Guidelines on Partnership

Guidelines on Partnership

Monitoring, Evaluating, Sustaining

Guidelines on developing and maintaining partnerships in Guiding and Scouting.

Produced by the Europe Region WAGGGS and the European Scout Region, this document shows how different forms of partnership are actively used in Guiding and Scouting Associations around Europe. Approaching partnerships from a broad perspective, it offers ideas on how best to form them within Scouting and Guiding and, also, externally. Above all, the Guidelines provide practical tips on how to initiate, maintain and follow through a partnership.
