

ScoutPAX

Autor: Nicola Gooderson
Saved From : www.scout.org

ScoutPAX is a tool to help plan and implement the Gifts for Peace projects.

It is full of information, planning guides, activities, web-links, stories from National Scout Organizations and examples of projects for Scouts of all ages.

By participating in the Gifts for Peace projects, Scouts will be making an enormous contribution towards building a more peaceful world - what better way to celebrate the 100th anniversary of Scouting in 2007?

Use ScoutPAX at local and national level.

- Find and use the parts that are relevant to your community and projects.
- Translate useful sections into local languages.
- Distribute copies of the kit to your Scout leaders.
- Navigate the website and explore the links.
