

World Scout Environment Programme Kit available in Spanish

Auteur: Maritza Pelz

Enregistré depuis: www.scout.org

The World Scout Environment Programme offers tools, resources and initiatives to help Scouts all around the world work together for the good of the local and global environment. This resource kit is now available in Spanish with special thanks to Marisol Mayorga of Costa Rica in particular for her support in translating the documents from English to Spanish.

You will find here

- The [framework for environment education in Scouting](#)
- Various [fact sheets](#) components of the World Scout Environment Programme,
- A lot of [programme activity resources](#) to help kick-start the environment activities for leaders,
- [Programme activity resources template](#)
- The [frequently asked questions](#) about the programme,
- World Scout Environment Programme [Identity Guidelines](#)
- Further [information](#) on how National Scout Organizations can use the World Scout Environment Programme and resources.
