The first step? Training of Trainers in Bulgaria took place from 11 to 14 March with a lot of energy, debate, involvement and commitment.

Apply the principles of adult training

Use different training methods

Design a training session

Start the process of a training system for the association.

These were all part of the aims for the Training of Trainers in Bulgaria from 11 to 14 March 2010 held in Vladaya.

20 Participants from all over Bulgaria worked together for 4 days. The trainers, Adriana, Elise and Dragan, did a fantastic job as the participants are now even more motivated to continue their roles and to work together on the Bulgarian Scout Training System.
