

Training and support to Volunteers

Author: Thierry Tournet
Saved From : www.scout.org

Scouting recognises that volunteers play an essential role in the Movement and the [Adults in Scouting](#) approach to the overall management; the recruitment, appointment, support and training and recognition, of its volunteers.

The Strategy for Scouting challenges NSOs to develop new approaches to broaden the base of volunteers that are willing and able to support Scouting. Approaches to volunteering vary from country to country. The EMC will help NSOs to explore volunteering from their perspective and make plans to extend their base of volunteering and provide appropriate training to support the growth of Scouting.

More information on volunteering is available in the [World Adult Resources Policy](#) and the [Volunteers in Scouting Toolkit](#) the [Volunteers in Scouting Toolkit 2](#)
