We also provide RSS feeds on dedicated subject:

[Environment News](#): News about Scouting and the environment.

[Scouts of the World News](#): Scouts of the World Award activities worldwide.

RSS is a family of web feed formats used to publish frequently updated digital content, such as blogs, news feeds or podcasts.

Users of RSS content "subscribe" to a feed by readers or [aggregators](#) supplying to their reader a link to the feed; the reader can then check the user's subscribed feeds to see if any of those feeds have new content since the last time it checked, and if so, retrieve that content and present it to the user.
