ABOUT SCOUTING

Scouting is a global voluntary, non-political, value based educational Movement for young people that builds friendships, experiences, and imparts skills, knowledge and attitudes for life that shape young people's futures as active citizens. It provides non-formal education, which complements the core curriculum offered in schools and colleges.

This is experiential education that focuses not only on acquisition of knowledge and skills but more on the development of a positive attitude that is useful for growth and development of self and of country.

It is open to all young people in the ages 6 to 26 years without distinction of origin, race, gender, and creed or ethnic/tribal background in accordance with the Purpose, Principles and Methods of the Founder, Lord Baden Powell.

Since inception by the Founder in 1907, the Scout Movement has continued to grow and is now active in 172 National Scout Organizations (countries). Today, over 57 million young people, supported by millions of dedicated volunteer adults, take part in Scouting activities and events worldwide.

Scouting promotes the growth and development of young people both as individuals and citizens through its programs and initiatives. The movement is committed to ensuring that each new generation of young people has the opportunity to realize their full potential as leaders in their community and the world.

Scouting's non-formal educational Youth Program aims at equipping young people with the skills and competencies that supports them to become active citizens who are committed to offering service by being solutions-oriented and focused on creating positive change.

FUNDAMENTAL PRINCIPLES OF SCOUTING

Duty to God: Commitment to a higher being.

Duty to Others:

Loyalty to one's country in harmony with the promotion of local, national and international peace and cooperation

Duty to Self:

Responsibility for self-development.

Vision:

Creating a Better World.

Mission:

Educating young people to play a constructive role in society.

Purpose:

To contribute to the development of young people in achieving their full physical, intellectual, emotional, social and character formation; equipping them with knowledge skills and positive attitudes useful to themselves and their communities.

ABOUT KENYA SCOUTS ASSOCIATION

The Founder of the Movement, Lord Robert Baden Powell started the Scouting Movement in 1907 in Brownsea Island, Southern England.

The birth of the Scout Movement in Kenya came shortly after it started in the United Kingdom. The first Nairobi troop was formed at St. John's Church (C.M.S.) Pumwani on November 24, 1910. In 1925 the first Eldoret troop was registered. The first Kijabe (Kenton College) troop was registered in 1926. During this time, the troops formed were mainly composed of Europeans and Asians. The first African troop was formed at Alliance Boys High School under the name "First Kikuyu Troop" in 1927. At this time Scouts took part in activities and public services, such as helping the poor.

Kenya was not only the first country in Africa to start the Scout Movement, but was also the second home of BP, founder of the Scout Movement. He is quoted as saying that he always felt at the centre of things when in Kenya. He decided, therefore, to live in Kenya from October 1938 until his death on January 8, 1941 and was buried in Nyeri. This is why Nyeri County is so central not only to Kenya, but also to global Scouting.

Since its establishment in 1910 the Kenya Scouts Association has grown into a dynamic Youth Movement and continues to mould and impact not only the lives of young people in Kenya, but that of the society as a whole. It currently has a membership of over 2.2 million young people, boys and girls, and over 40,000 Adult Scout Leaders who support the young people in various capacities: as teachers, trainers, mentors and administrators

The Kenya Scouts Association is currently the largest Scout organization in Africa and is ranked 6th out of 172 countries practicing Scouting globally.

The Kenya Scouts Association is established under the Act of parliament CAP 219 of the Laws of Kenya.

The Kenya Scouts Association provides young people with opportunities to participate in programs, events, activities and projects that contribute to their growth as active citizens. Through these initiatives, young people become agents of positive change who inspire others to take action to create a better world. The Association aims at developing the youth at their formative ages so that they become responsible citizens through social, physical, intellectual and spiritual development.

The membership of over 2.2 million young people are spread out in all the 47 counties with about 97% being in the primary and secondary schools, tertiary institutions and the universities. The remaining 3% are young people who are out of school but in organized groups such as religious institutions.

SCOUT PROGRAM AREAS

1.

Life Skills
Development

2.

Physical and Health
Education –
Reproductive Health,
Drug Demand Reduction,
HIV/AIDS

3.

Mental Health
Education

4.

Environmental
Conservation –
tree growing, plastic
waste management

5.

Peace Education
and Advocacy

6.

Climate Smart
Agriculture

7.

ICT – safe use of the
internet, coding,
creating, learning,
making global
friendships.

8.

Entrepreneurship
and Innovation

9.

Financial
Literacy

10.

Citizenship

11.

Education,
Radicalization and
violent extremism

12.

Mainstreaming young people
with special needs: disabled,
refugees, internally displaced,
juvenile delinquents,
orphaned and child-parents.

SCOUT SECTIONS

There are four sections of scouting in Kenya;

Age	Local Name
6 -11 years	Sungura Scouts
12-14 years	Chipukizi Scouts
15-17 years	Mwamba Scouts
18-26 years	Jasiri Scouts

SCOUT LAW

- 1) A Scout's honour is to be trusted.
- 2) A Scout is a good citizen who respects God, own country and others.
- 3) A Scout's duty is to be useful and to help others.
- 4) A Scout is a friend to all and a kin to every other Scout no matter what country, community or religion the other may belong.
- 5) A Scout is kind and has respect for others.
- 6) A Scout is kind to animals, learns about nature and is concerned with its protection.
- 7) A Scout obeys lawful orders of those in authority.
- 8) A Scout is cheerful and brave under all difficulties.
- 9) A Scout makes good use of all things.
- 10) A Scout is clean in appearance, thought, word and deed.

SCOUT METHOD FOR THE DELIVERY OF THE SCOUT PROGRAM

This is the means through which the Objective, Purpose and Principles of the Movement are achieved.

The Scout Method is applied in the following ways:

1) Law & Promise

These are binding words of commitment by all Scouts to the values, beliefs and practices of Scouting.

2) Learning by Doing

This is a practical approach to effective learning that encourages self-development and self-reliance.

3) Patrol system

Scouts work in small groups, which provide effective participation of each member under the leadership of their peers.

4) Progressive Scheme

This is a system of learning and self-development through varied activities carried out by scouts in accordance to one's interest.

5) Symbolic Framework

Through this framework, Scouts acquire identity by relating to their social-cultural background.

6) Adult-Youth Relationship

The adult leader guides the youth as they carry out the Youth Programmes Activities.

7) Life in Nature

Outdoor activities are effectively carried out in camping situations within a natural environment. Scouts get an opportunity to interact with nature.

ADULT PROGRAMME

The Association adopts a holistic and systematic approach to every role or function undertaken by an adult in Scouting through its policies. These give careful consideration to all aspects of the management of adults in the Movement and include attracting and recruiting the adults needed and supporting them in their role or function and assisting them in their development.

Adults in Scouting provide leadership in the implementation of the youth programme. They undertake various training sessions to enable them to carry out their roles effectively.

Our Commitment

We, the Kenya Scouts Association, want to contribute in preparing free, supportive, responsible and committed citizens who are needed to build a better Kenya. These will be:

Men and women of Character and Integrity

Responsible and self-reliant, constant and true to the word, able to value human labour and build their family on love, aware of their own dignity and that of others, able to share with every-body joyfully and affectionately

Agents of Development

Ready to serve others, involved in their communities, defenders and respecters of their people's rights, pledged to democracy and committed to development, lovers of justice and promoters of peace.

Creative persons

Keen to leave the world better than they found it, able to strive for the integrity of the natural world and be innovative in resolving problems.

Spiritual people

Free from the hunger to possess, with a transcendental sense of life, able to open their hearts to God, live their faith joyfully and make it part of their daily life, open to dialogue and understanding and able to respect others' cultural traditions and religious beliefs.

Therefore, our choice is to act as educators and as supporters of our youth, to work with like minded organizations and individuals who believe in young people as being real agents of positive change for all Kenyans and the world at large.

GOVERNANCE

The Patron: The Sitting Head of State. Currently H.E. Hon William S. Ruto PhD, CGH

The National Scout Council: Highest Decision Making organ.
Current chairman is Amb. (Prof) Jacob T. Kaimenyi, EGH.
Title: Chief Scout.

The National Scout Board: Policy, Strategy and Oversight.
Current chairman is Mr. Victor Radido.
Title: Chief Commissioner.

The Secretariat: Management/Implementing organ.
Chief Executive: Moses Danda

Devolved units: Every county has a County Scout Council, County

Executive Committee, County Scout Board. The Principal official at County level is the County Scout Commissioner. The same is replicated at the sub-county level with the head being the Sub-County Commissioner.

At Unit Level, scouting activities are coordinated by the Scout Leader.

KENYA SCOUTS ASSOCIATION HEADQUARTERS

The Association Headquarters is based at the Rowallan Scouts Training Camp in Jamhuri, opposite the Jamhuri ASK Showground along the Kibera Drive. This is a parcel of land which is part of the Ngong Forest Sanctuary and was leased to the Kenya Scouts Association for use and development.

The Association has other satellite stations (campsites and centres) in Nyeri town, Karatina, Embu, Eldoret, Siaya, Kilifi and Machakos and Scout Shop outlets in Nairobi CBD, Rowallan camp, Mombasa CBD, Eldoret CBD, Kisumu CBD, Nakuru CBD, Kakamega town, Embu town, Nyeri town.

KEY STAKEHOLDERS

- 1) The National Government:** particularly Ministry of Education, Ministry of Youth Affairs, Sport and Arts, and the Ministry of ICT
- 2) Teachers' Service Commissions.**
- 3) County Governments**
- 4) World Organization of the Scout Movement (WOSM)**
- 5) Teacher Organizations:** KEPSHA, KESSHA, KPSA
- 6) Parents of Scouts**
- 7) Our Partners:** UNICEF, KPA, CA(K), Rainforest Alliance, Compassion International and Wildlife Direct, VI Agro Forestry

FUNDING

We depend on the Grant in Aid from the Government of Kenya, donations from Partners, Individuals, Parents of the Scouts and income generated from Scout self-sustainability projects to carry out our mandate.

FOREWORD

The implementation of devolution, following enactment of the Constitution of Kenya, 2010 necessitated the devolution of Scouting structures and functions to better serve the young people and the Youth of this great nation.

It is with great pleasure that I write this foreword for this maiden 2024 Scouts Census Report that highlights the numbers and distribution of Scouts in the 47 counties in the country. It also highlights the social impact of Scouts through the implementation of various programs and initiatives across the country.

The Government of Kenya has Education as a strong pillar in the development of the nation. Through the Ministry of Education which is mandated with the provision of children's right to free and compulsory basic education and to ensure the access to education institutions and facilities for persons with disabilities we receive a Grant in Aid that supports the implementation of the Scout programme to young people and the Youth in the country.

I want to register my sincere gratitude to Dr. Belio Kipsang, Principal Secretary, State Department for Basic Education who sanctioned data collection in schools with the aim of establishing the number of Scouts in these learning institutions in Kenya.

The Principal Secretary continues to take keen interest on the impact of our Scout Programme to the young people in the country and has held fruitful discussions with the Association's management led by Pro. Jacob T. Kaimenyi on how to better reach our learners through the non-formal education system of Scouting.

Too often, we think of school as a fixed-rail path we all have to follow: teachers teach, students learn, exams are taken, futures set. This is however not the case. Scouting acknowledges the complexities and challenges of today's classroom, while exemplifying practice and learning by doing as ways educators to achieve the full potential of learners by imparting knowledge, skills, attitudes, and values that build competencies for life to all these dimensions.

Through various learning opportunities and experiences the Scout Programme empowers our learners' personal growth by addressing six dimensions of a young person's development - social, physical, intellectual, character, emotional and spiritual development.

This census report by the Association is timely and gives us as stakeholders in education and the wellbeing of our young people and the youth a glimpse at the impact that the Scout programme has in the areas of empowerment and community engagements.

It also provides a statistical snapshot of our Scouts (learners) and Scout leaders across the country which is essential for policy making, planning and administration of various programmes and initiatives, and provides a principal source of record for use during the years between census.

This census also provides vital information that the government can use in its allocation of Grant in Aid to the movement more so with the increased number of Scouts recorded here in.

Indeed, there is still much work to be done to improve the education and wellbeing of children and the youth in this country and the Scouting Movement is a notable stakeholder in this mission through its mission of educating our children to become valuable and responsible persons in the society.

As a Movement we have deliberately Scouting in the country an open educational source for all our children and the youth. The Scout programme is freely accessible to anyone wanting to learn.

VICTOR RADIDO

**CHIEF COMMISSIONER
THE KENYA SCOUTS ASSOCIATION**

CHAPTER 1: INTRODUCTION

CHAPTER 1: INTRODUCTION

1.1 Background Information

The Kenya Scouts Association annually reports its membership data growth to the Kenya Scouts Council and to the World Organization of the Scout Movement (WOSM) in its Annual Reporting Portal.

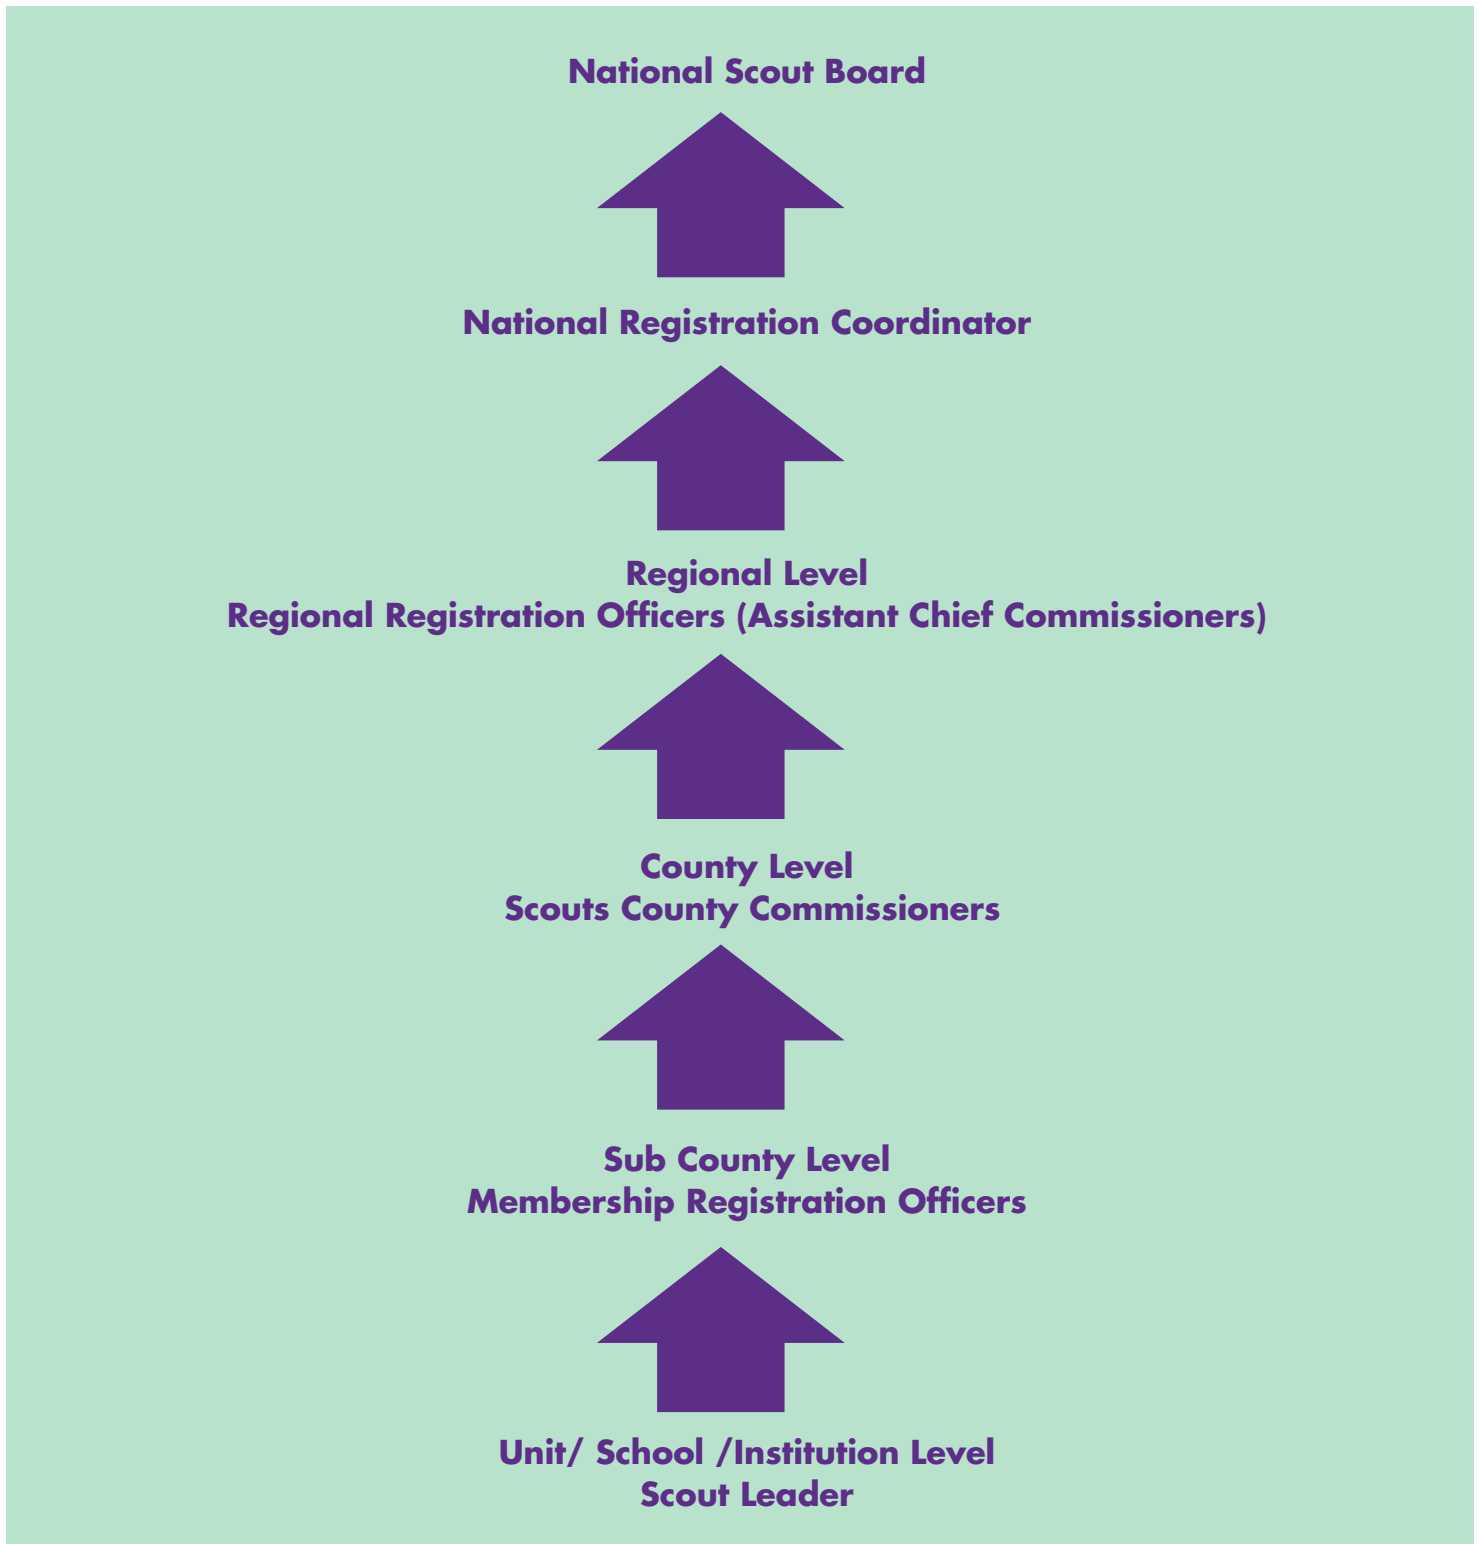

1.2 Objectives of the 2024 Scout Census

- a) To establish the current number of scouts in the county.
- b) To establish the Geographical, Gender and Age distribution of all the Scouts in the country.
- c) To plan for Resources, Scout Programmes and Initiatives.

1.3 Census Management Structure

Various committees were established and appointments made for personnel which were operationalized at National, County, Sub County and Unit levels to manage the census process.

The National Scout Board spearheaded the census process and provided direction.

1.4. Use of Technology

The Kenya Scouts Association adopted the use of mobile technology to collect data during the 2024 Scouts census. This is the first Scouts census in Kenya to use mobile technology in the capture and transmission of data.

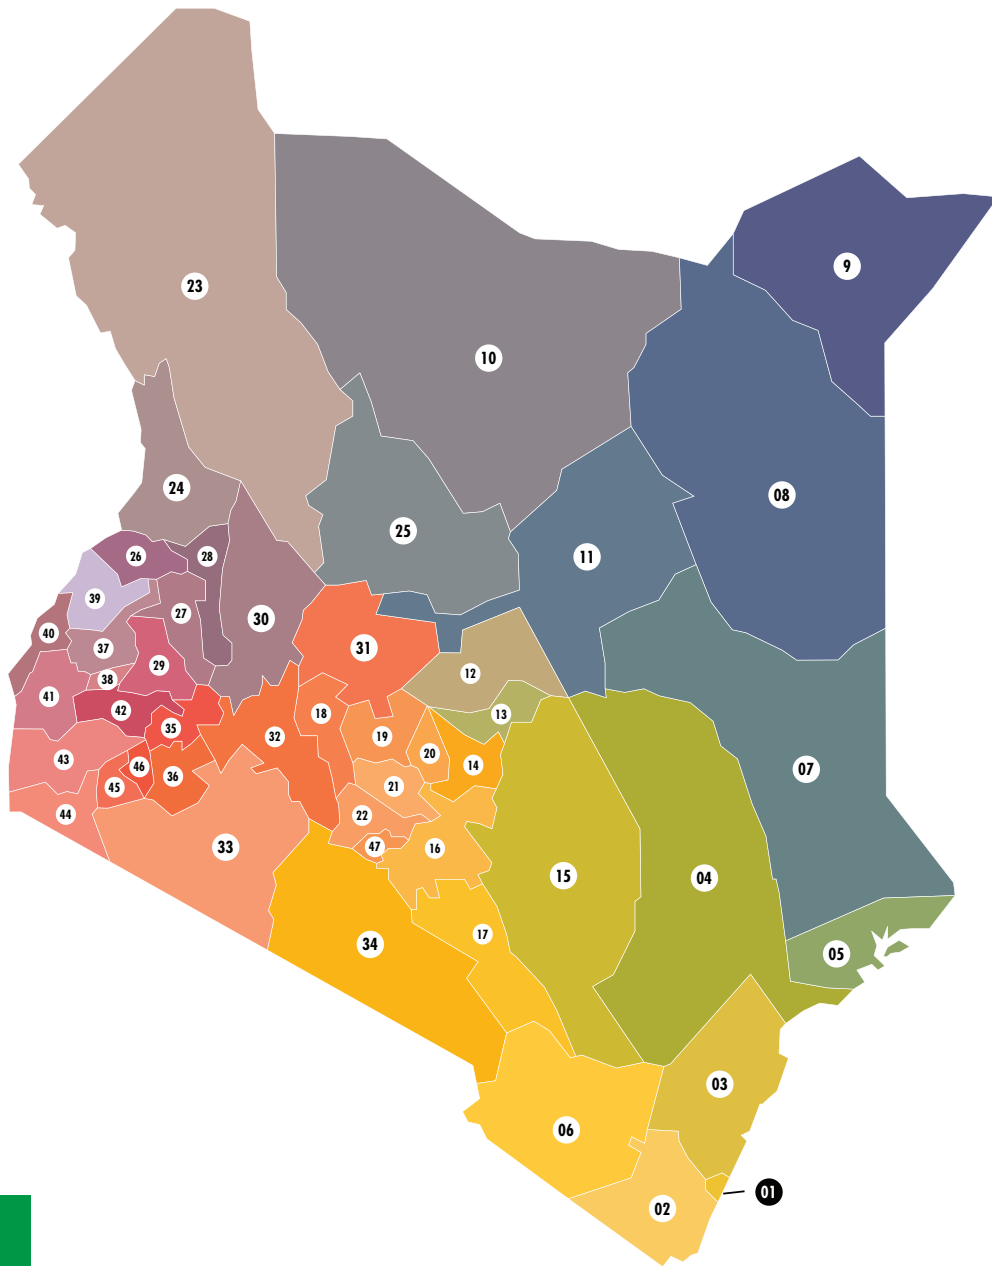

1.5 Quality Assurance

Quality assurance was integrated in all phases of the census process. Comprehensive guidelines were developed and shared with census personnel by the National Executive Committee who oversaw the whole process of the Scouts Census.

1.7 Constraints and Challenges

The major challenge in this process was poor network connectivity in some areas hampered the real time transmission of data to the central server at the Kenya Scouts Association. This challenge was however managed and did not hamper the data collection phase of the Census.

CHAPTER 2: CENSUS RESULTS

2.1 Summary Findings

The Kenya Scouts Association (KSA) is a prominent and influential organization that plays a pivotal role in the development of young people across the country.

Established with the mission of fostering leadership, responsibility, and a spirit of community service, KSA is deeply embedded in the educational fabric of Kenya.

With its presence in nearly all schools nationwide, the association provides a structured environment where students can learn, grow, and contribute positively to society.

NAIROBI COUNTY

Nairobi County is the capital city of Kenya and a major hub for commerce, education, and culture. The county boasts a diverse population and is home to numerous schools with vibrant scouting activities. Scouts in Nairobi engage in urban-based community projects, environmental conservation efforts, and leadership programs, making significant contributions to the city's development.

NAIROBI COUNTY

NAIROBI	MALE	FEMALE	TOTAL	 TOTAL SCOUTS
SUNGURA	95,949	97,021	192,970	458,304
CHIPUKIZI	58,305	62,301	120,606

JASIRI	22,978	25,264	48,242	
SCOUT LEADERS	5,998	4,014	10,012	10,012

MOMBASA COUNTY

It is a coastal region known for its beautiful beaches, rich Swahili culture, and bustling port. Scouts in Mombasa are heavily involved in coastal conservation efforts, which include beach clean-ups, marine conservation projects, and awareness campaigns about the importance of protecting marine ecosystems.

These activities are crucial in maintaining the health of the coastal environment, which is vital for tourism and local livelihoods. Scouts also organize youth leadership forums and cultural heritage projects that celebrate the county's diverse traditions and promote unity among the different communities. Their work helps to foster a sense of responsibility towards the environment and cultural heritage among the youth.

MOMBASA COUNTY

MOMBASA	MALE	FEMALE	TOTAL	🌿 TOTAL SCOUTS
SUNGURA	22,846	25,197	48,043	135,840

JASIRI	9,644	6,209	15,853	
SCOUT LEADERS	909	976	1,885	1,885

KISUMU COUNTY

It is located on the shores of Lake Victoria, is a key region for freshwater conservation and health initiatives. Scouts in Kisumu engage in various lake conservation projects aimed at preserving the ecosystem of Lake Victoria. These projects include clean-up activities, pollution control measures, and awareness campaigns about sustainable fishing practices. Scouts also participate in health campaigns that focus on preventing waterborne diseases, promoting hygiene, and supporting community health workers.

Additionally, agricultural projects that introduce sustainable farming practices are a major focus, helping to improve food security and livelihoods in the region. Through these activities, scouts in Kisumu play a crucial role in enhancing environmental sustainability and public health.

KISUMU COUNTY

KISUMU	MALE	FEMALE	TOTAL	 TOTAL SCOUTS

NAKURU COUNTY

Features diverse landscapes, including the renowned Lake Nakuru, which is a critical site for wildlife conservation. Scouts in Nakuru participate in numerous environmental conservation activities, such as reforestation, anti-poaching initiatives, and habitat restoration projects. These efforts are essential in preserving the unique biodiversity of the region. Scouts also engage in community health initiatives, organizing health camps, and awareness drives about diseases such as malaria and HIV/AIDS.

Furthermore, agricultural support projects that promote sustainable farming practices are conducted to improve food security and economic stability in the county. The scouts' efforts in Nakuru are pivotal in promoting environmental stewardship and community well-being.

NAKURU COUNTY

NAKURU	MALE	FEMALE	TOTAL	 TOTAL SCOUTS
SUNGURA	22,301	25,809	48,110	135,840

JASIRI	8,741	11,069	19,810	
SCOUT LEADERS	1,648	1,504	3,152	3,152

MERU COUNTY

Meru County located on the eastern slopes of Mount Kenya, is rich in biodiversity and cultural heritage. Scouts in Meru engage in various conservation efforts aimed at protecting Mount Kenya and its surrounding ecosystems. These efforts include reforestation projects, wildlife protection initiatives, and campaigns to prevent soil erosion.

Scouts also participate in community service projects, such as building and maintaining schools, health clinics, and water supply systems, which significantly improve the quality of life for local residents. Leadership programs that focus on developing responsible and proactive youth are a key aspect of scouting in Meru. Through these diverse activities, scouts in Meru play a vital role in environmental conservation and community development.

MERU COUNTY

MERU	MALE	FEMALE	TOTAL	 TOTAL SCOUTS
SUNGURA	37,681	35,530	73,211	181,488

SCOUT LEADERS	2,003	2,038	4,041	4,041

EMBU COUNTY

Embu County is characterized by its fertile land and advanced agroforestry practices. Scouts in Embu are actively involved in promoting sustainable agricultural practices that enhance food security and environmental conservation. These activities include training farmers on agroforestry techniques, implementing soil conservation measures, and managing water resources efficiently.

Water projects, such as building and maintaining boreholes and rainwater harvesting systems, are also a major focus, ensuring that communities have access to clean and reliable water sources. Youth mentorship programs that guide and support young people in their personal and professional development are another significant aspect of scouting in Embu. Through these initiatives, scouts contribute to sustainable agriculture and community well-being.

EMBU COUNTY

EMBU	MALE	FEMALE	TOTAL	🦿 TOTAL SCOUTS

JASIRI	5,000	5,302	10,302	
SCOUT LEADERS	903	948	1,851	1,851

KIRINYAGA COUNTY

Kirinyaga County, situated near Mount Kenya, is known for its rivers and rich agricultural activities. Scouts in Kirinyaga engage in numerous environmental conservation efforts, including tree planting, river clean-up activities, and educational campaigns on water conservation. These projects are crucial in maintaining the health and sustainability of the county's natural resources.

Community health initiatives that address issues such as malaria prevention, hygiene promotion, and nutrition education are also a key focus. Scouts work closely with local health workers to deliver these programs effectively. Additionally, environmental education programs in schools aim to instill a sense of responsibility towards the environment among students. The scouts' activities in Kirinyaga are essential in promoting environmental protection and community health.

KIRINYAGA COUNTY

KIRINYAGA	MALE	FEMALE	TOTAL	 TOTAL SCOUTS

JASIRI	2,107	3,117	5,224	
SCOUT LEADERS	730	695	1,425	1,425

MACHAKOS COUNTY

It is a semi-arid region known for its innovative dryland farming practices. Scouts in Machakos are actively involved in projects that promote water conservation and sustainable agricultural practices. These initiatives include building and maintaining water storage systems, such as sand dams and rainwater harvesting tanks, and training farmers on drought-resistant crops and soil conservation techniques. Leadership training programs that focus on developing skills in project management, teamwork, and community mobilization are also a significant part of scouting activities.

Through these diverse efforts, scouts in Machakos play a vital role in enhancing agricultural productivity, water management, and community resilience.

MACHAKOS COUNTY

MACHAKOS	MALE	FEMALE	TOTAL	 TOTAL SCOUTS

SCOUT LEADERS	2,339	2,169	4,508	4,508

KITUI COUNTY

It is known for its dry climate and innovative sand dam projects that help in water conservation. Scouts in Kitui participate in building and maintaining these sand dams, which provide a reliable water source for communities during dry periods. Tree planting and reforestation projects are also a major focus, aimed at combating desertification and improving the local environment.

Community service projects, such as building schools, health clinics, and sanitation facilities, are regularly conducted to improve the quality of life for residents. Leadership training programs that equip scouts with skills in problem-solving, project management, and community engagement are another crucial aspect of scouting in Kitui. Through these activities, scouts contribute significantly to water conservation and community development.

SCOUT LEADERS	1,100	956	2,056	2,056

MAKUENI COUNTY

Makueni County is a leader in climate-smart agriculture and sustainable development practices. Scouts in Makueni engage in various projects that promote climate resilience and sustainable agricultural practices. These initiatives include training farmers on drought-resistant crops, soil conservation techniques, and efficient water management practices.

Scouts also participate in water projects that ensure communities have access to clean and reliable water sources. Leadership programs that focus on developing skills in decision-making, teamwork, and community mobilization are a key aspect of scouting activities. Through these diverse efforts, scouts in Makueni play a vital role in enhancing food security, water management, and community resilience.
